

TECH TUESDAY

This week's key question is...

What information belongs to other people?

The objectives we are covering:

I can describe why other people's work belongs to them.

I can recognise that content on the internet may belong to other people.

I understand that work created by others does not belong to me even if I save a copy.

The resources we will use:

During the discussion, we talked about how we can show that something belongs to us by naming it e.g. a picture we have drawn or a photo we have taken. We then questioned if someone's work, picture, photo etc isn't named, can we claim it as our own?
